An Over the Counter ("OTC") Derivative Contract for Difference ("CFD") - Forex CFD

#### Objectives

A Forex CFD is not a listed instrument, but is traded as an over-the-counter contract between you and OCI OASIS CAPITAL INVESTMENT (CYPRUS) LTD.

A Forex CFD enables you to have exposure to price movements on the underlying currency pair (the base currency and the quote currency). A Forex CFD is an agreement between you and OCI OASIS CAPITAL INVESTMENT (CYPRUS) LTD to exchange the difference in price of the underlying over a period of time. The difference to be exchanged is determined by the change in the exchange rate between two currencies. Thus, if the exchange rate of the base currency rises you receive cash in the settlement currency from OCI OASIS CAPITAL INVESTMENT (CYPRUS) LTD and vice versa. A Forex CFD can be bought long or sold short to suit your view of market direction in the future.

A Forex CFD is a leveraged product, which requires you to deposit a smaller amount of cash as margin, than the notional value of the position. For retail investors, the CySEC mandates a minimum initial margin depending on the currency pair of 3.33% or 5% of the notional value of the Forex CFD, and requires OCI OASIS CAPITAL INVESTMENT (CYPRUS) LTD to liquidate open positions, if the qualifying equity (CFD cash and unrealized CFD P&L) in your CFD account, falls below 50% of the initial margin requirements for all CFD positions.

#### Example

If you enter into a buy 5 CFD Lots on EUR/USD Forex Symbol, when the underlying price of EUR/USD is 1.10000, the Company will request you to place 16,667EUR as margin with us. If the price of the Symbol increases to 1.11000, your profits will be 50,000EUR, minus any relevant costs. If it decreases to 1.09000you will lose 50,000EUR plus any relevant costs. Depending on whether the Company applies any notifications, when your account is close to margin calls, we may ask you for additional funds to ensure your trade/ position remains open, otherwise we may be forced to close your position.

# What happens if the OCI OASIS CAPITAL INVESTMENT (CYPRUS) LTD is unable to pay out?

All Clients' money safeguarded by the Company, are held in segregated bank accounts, separately from the Company's own funds, and safeguarded with highly rated credit institutions in Europe. The Company performs, on a daily basis, internal and external reconciliations as required by the CySEC and prescribed by the rules of MiFID II for the Company to ensure, that it maintains adequate amounts in its Clients' money accounts to cover all client funds.

In the unlikely event, that the Company will be unable to pay you out, the client can contact the Investor Compensation Fund (the "ICF"). The ICF is the Cyprus' statutory fund of last resort for customers of Cyprus Investment Firms ("CIFs"). This means, that the ICF can pay compensation up to €20,000 per eligible client, if the Company is unable to fulfil its financial obligations. An eligible client is considered any retail client (<u>not professional or institutional</u>), irrespective of whether the Company holds his/her funds and/or financial assets. The actual level of compensation, which will be paid out by the ICF, will be based on your claim. The ICF is an independent body, set up under the Investment Services and Activities and Regulated Markets Law of 2017, which the Company is a member of, as it is authorized and regulated by the CySEC (License Number: **443/24**).

#### What are the costs?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here, are cumulative costs of the product itself for an estimated holding period of 4 Weeks. The figures assume you invest €2,000 for a €10,000 notional value. The figures are estimates and may change in the future.

Costs Over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Estimated Holding Period	4 Weeks		
Investment	€2,000		
Notional Amount	€40,000		
Total Costs	-€112.68		
Impact on Return	-5.63%		

Composition of Costs

The table below shows:

• The impact each year of the different types of costs.

· What the different cost categories mean.

One-off costs	Entry costs	0.0255%	Brokerage Commissions. This is the most you will pay, and you could pay less.
	Exit costs	0.0055%	Brokerage Commissions. This is the most you will pay, and you could pay less.
Ongoing Costs	Swaps	0.0115%	Financing costs. Paid on the notional amount based on overnight deposit benchmark. Every Wednesday this cost multiplies by 3.
	Other on-going costs		Not Applicable

How long should I hold it, and can I take money out early? Recommended (required minimum) holding period: None

There is no recommended holding period or minimum holding period, though CFDs are intended for short term trading, in some cases intraday and are generally not suitable for long- term investments. Generally, there are no consequences of you choosing to close your position, other than ending your exposure to the underlying at that time.

Early termination may occur in the event your account has insufficient funds to support the margin requirement for your position, as a consequence of certain corporate actions, or if OCI OASIS CAPITAL INVESTMENT (CYPRUS) LTD for other reasons decides to discontinue the CFD, or if OCI OASIS CAPITAL INVESTMENT (CYPRUS) LTD were to become insolvent.

#### You can request to withdraw your money at any time, as long as there are available sufficient funds in your trading account. How can I complain?
